Worked with more than 1000 global tech startups, agencies and companies for their customized business needs.

_____

We empower startups with our expertise at every stage. Whether yours is at the seed-stage or expansion-stage we are with you through to the end !

We Have Trust

SRIK is an IT Consulting Company that delivers state-of-the-art solutions to assist large businesses, enterprises and SMEs across the planet. Our Mission is to strategize, incorporate the latest technologies and deliver business-class solutions to streamline their operations.

Our Mission is to strategize, incorporate the latest technologies and deliver business-class solutions to streamline their operations.

Client Testimonials!!

We collaborate with companies from 03 countries and 5 industries. Our project portfolio includes over 75 success stories. We asked our customers what are their impressions on cooperation with SRIK – have a look at their answers in the testimonials below.

I have worked with SRIK for several years in both my current and previous roles. When technical resource hiring is required, it is key to me that I have a resource who communicates regularly, understands the job requirements and the culture of the company. This is what I have found with working with SRIK, they provide all 3.

Jim Smith
Kansas, United States

We have been cooperating with SRIK for 5 years. SRIK team of five Dot Net developers and one Test Engineer have been working hard to ensure our E Comm product - QePOS - exceeds our customer's expectations. The team has become an integrated part of QePOS, and we appreciate their efforts and passion for the product.

Prakash
Manchester, UK

The work completed was of a high standard and the resource from SRIK was very receptive to feedback and amendments. Communication was always positive and pro-active with team SRIK being available to discuss amendments to ensure satisfaction with the project.

Schubert
Germany

Brijesh
Pune, INDIA

Excellent Java resource provided who did the job perfectly. We felt java developer has expertise and very diligently finished the task. Excellent in communication and he has thorough technical knowledge. He has also shown us project direction for the future development. We will hire them again.

We worked with SRIK in developing our Artesis e-MCM - a versatile predictive maintenance solution. The development and implementation process was very smooth and delivered the exact results we were expecting. We will surely work with them in the future.

Karaver
Istanbul

Fernandez
Sydney, Australia

Team members of SRIK are knowledgeable, professional and responsive to client vision, input and feedback. Sandeep has implemented and supported our tasks & always been available to deliver client milestones in a high quality manner. I will continue to use SRIK services for my IT development needs.

"The concerned person had fair knowledge of the android development. Job got done successfully."
